The 25th is fine for ARARs- please confirm the date/time.

I still cannot make the RAO meeting on 2/9, and I was reminded at a recent FS scoping meeting for the upland Gasco project how important it is to incorporate definitions that can have a significant effect on the project outcome. For example, should we, and do we have the "authority," to evaluate beyond the typical 30-year O&M period when we are concerned about potential extended impacts from PBTs relative to removal alternatives?

Good luck-
Tom

The LWG wishes to reschedule the March 9th ARARs/Point of Compliance meeting. Right now, Wednesday, February 25th is my first choice based on the availability of Lori Cora and Ron French, who will be helping us out on the FS. If you are planning on attending this meeting, please tell me whether the 25th works for you. If it does not, please let me know what dates and times do work.

Thanks, Eric
